

# The Essentials Course

2-Day TapRoot®

## Root Cause Analysis Training

### **Do you investigate incidents that could have been worse?**

They could be a precursor to a safety-related accident, a major quality issue, a huge cost overrun, a major equipment failure, or a significant loss of production. This course teaches you to use the [Essential TapRoot® Techniques](#) to understand what happened, identify the Causal Factors and find the Root Causes. TapRoot® Techniques are designed for everyone from beginner to expert. In just two days, learn the [TapRoot® Essentials](#) to find and fix, the root causes of incidents, accidents, quality problems, near misses, operational errors, hospital sentinel events and other types of problems.

The [Essential Techniques](#) includes, learning to use the SnapCharT®, the Root Cause Tree®, and the Corrective Action Helper®

Attendees should bring an incident from their workplace for a team exercise. These may be either written reports or they may have knowledge of an incident with no written report. We divide into teams of 2-4 people and have each team analyse a different problem during the course.

Course materials we provide for the 2 Day course include:-

1. TapRoot® Essentials Book
2. Laminated TapRoot® Root Cause Tree®
3. TapRoot® Root Cause Tree® Dictionary
4. Course Workbook
5. Corrective Action Helper® Guide

Upon completion of the course, attendees will receive a certificate of completion and a 90-Day Subscription to TapRoot® Personal Software,

If you would like to enrol please go to the calendar for training dates and locations.
