

# Team Leader Training

## 5-Day TapRoot®

### Advanced Root Cause Analysis

The 5-Day Training is for people who want the skills to investigate precursor incidents as well as major incidents (serious injuries, fatalities, major facility upsets, fires and explosions, or significant environmental releases).

The course covers the **TapRoot® Essential techniques** (SnapCharT®, Safeguards Analysis, the Root Cause Tree®, and the Corrective Action Helper®), and the **optional tools** (Change Analysis, CHAP, and Equifactor®) that are used in **complex investigation**.

In addition, the course covers advanced interviewing and information collection techniques and techniques to **improve human performance**. There are frequent exercises using the **TapRoot® Software** so that attendees leave with significant practice of the skills they will apply when they get back to work.

Course materials provided for the 5 Day Course include:-

1. TapRoot® Major Investigations Book
2. TapRoot® Essentials Book
3. Laminated TapRoot® Root Cause Tree®
4. TapRoot® Root Cause Tree® Dictionary
5. Course Workbook
6. Corrective Action Helper® Guide

Upon completion of the course, attendees will receive a certificate of completion and a 90-Day Subscription to TapRoot® Personal Software, as well as free access to a software training webinar

If you would like to enrol in the 5 Day Course go to the **Hillwood Training** calendar for dates and locations
